- Any blade alignment

- Height: Up to 48"
- Width: Over 96"
- Three or more sections.
- Any blade alignment.

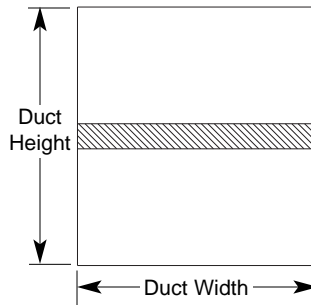

- Height: Up to 48"
- Width: 50" to 96"
- Two sections.
- Any blade alignment.

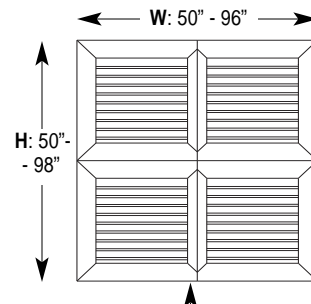

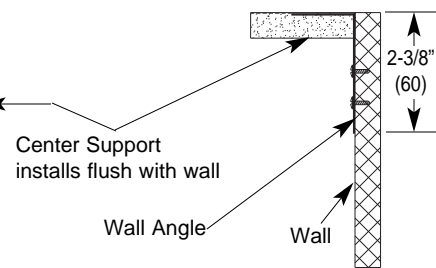

Multi-Panel Ganged Construction

Notes:

- Maximum single panel width and height are 48" listed size.
- Panels will be made in even inch increments unless specified otherwise.
- Front blade alignment is always parallel to center support.
- Either the vertical or horizontal joint can be sheared down, but not both.
- The center support can be aligned vertically or horizontally, depending on blade alignment desired. It is shown here mounted horizontally.
- Grille dimensions shown are listed dimensions. Other dimensions are actual.
